

Please amend the present application as follows:

**Claims**

The following is a copy of Applicant's claims that identifies language being added with underlining ("\_\_\_") and language being deleted with strikethrough ("——"), as is applicable:

1. (Currently amended) A method for reporting ~~event data~~ to requesting subscribers using ~~a manufacturing repository for collecting event data that is connected to a subscriber profile system for storing information relating to subscribers and a production system for storing information relating to manufacturing~~ about peripheral device events, the method comprising:

maintaining subscription profiles for the subscribers that indicate the subscribers' preferences in regard to event notifications and periodic subscription reports that can be provided to the subscribers, each profile specifying what peripheral device event information the subscriber wishes to receive and the format in which the subscriber wishes to receive the peripheral device event information;

~~gathering event data from a plurality of peripheral devices connected to the manufacturing repository, the event data relating to~~ peripheral device events that have occurred at the peripheral devices;

saving the event data to a database;

~~automatically notifying designated subscribers about logged events~~ sending to designated subscribers event notifications upon occurrence of the peripheral device

events, the event notifications being sent according to criteria indicated by contained in  
the subscriber profiles; and

selectively separate from sending the event notifications, automatically  
generating periodic subscription reports at regular periodic intervals according to criteria  
indicated by contained in the subscriber profiles~~[[.]]~~ and automatically sending the  
periodic subscription reports to designated subscribers according to criteria indicated by  
contained in the subscriber profiles.

2. (Previously presented) The method according to claim 1 wherein the event data comprises information relating to any one from the group of region, manufacture, model or customer identification.

3. (Currently amended) The method according to claim 1 wherein the periodic subscription reports comprise comprise information in the form of text, tables, charts and/or graphs.

4. (Canceled)

5. (Currently amended) The method according to claim 1 further comprising:  
receiving a request to set up or change a subscriber profile;  
receiving new subscriber information and entering it to a subscriber profile; and  
saving the new subscriber profile ~~to the manufacturing repository.~~

6. (Currently amended) The method according to claim 5 wherein entering new subscriber information comprises:

- entering contact information of ~~the~~ a subscriber;
- entering the subscriber's desired notification request;
- entering subscription report criteria; and
- entering a designated time cycle for subscription report.

7. (Original) The method according to claim 6 wherein the time cycle includes any one from the group of none, daily, weekly, monthly, quarterly or yearly.

8-9. (Canceled)

10. (Currently amended) The method according to claim 1 wherein automatically ~~notifying designated subscribers~~ sending to designated subscribers event notifications comprises:

- searching ~~the~~ a subscriber profile for notification requests for the event data according to ~~the~~ requested criteria;
- determining whether there are any notification requests for the event data;
- composing notifications for each notification request determined in the subscriber profile; and
- sending out the notifications to the requesting subscriber.

11. (Canceled)

12. (Previously presented) The method according to claim 10 wherein the requested criteria includes any one from the group of event occurrence by page count, event occurrence by region, event occurrence by manufacturing information, event occurrence by device model, or event occurrence by customer.

13. (Currently amended) The method according to claim 1 wherein automatically generating periodic subscription reports comprises:

searching ~~the~~ a subscriber profile for any scheduled subscription report due;  
determining whether there is any scheduled subscription report due; and  
accessing information relating to the subscriber of any predetermined scheduled subscription report due.

14-15. (Canceled)

16. (Currently amended) The method according to claim 13 further comprising:

sorting the information for the scheduled subscription report according to ~~the~~  
criteria of the requesting subscriber profile; and  
formatting the information to generate the report.

17. (Currently amended) A computer program product comprising a computer usable medium having computer readable program codes embodied in the medium that when executed causes a computer to:

maintain subscription profiles for subscribers that indicate the subscribers' preferences in regard to event notifications and periodic subscription reports that can be provided to the subscribers, each profile specifying what peripheral device event information the subscriber wishes to receive and the format in which the subscriber wishes to receive the peripheral device event information;

~~gather event data from a plurality of peripheral devices connected to a manufacturing repository, the event data relating to~~ peripheral device events that have occurred at the peripheral devices;

save the event data to a database;

~~automatically notify designated subscribers about logged events~~ send to designated subscribers event notifications upon occurrence of the peripheral device events, the event notifications being sent according to criteria indicated ~~by~~ contained in the subscriber profiles; and

selectively separate from sending the event notifications, automatically generate periodic subscription reports at regular periodic intervals according to criteria indicated by contained in the subscriber profiles~~[[;]]~~ and automatically send the periodic subscription reports to designated subscribers according to criteria indicated by contained in the subscriber profiles.

18. (Currently amended) The product according to claim 17 wherein ~~automatically notifying designated subscribers~~ sending to designated subscribers event notifications comprises:

searching ~~the~~ a subscriber profile for notification requests for the event data according to ~~the~~ requested criteria;

determining whether there are any notification requests for the event data;

composing notifications for each notification request determined in the subscriber profile; and

sending out the notifications to the requesting subscriber.

19. (Currently amended) The product according to claim 17 wherein automatically generating periodic subscription reports comprises:

searching ~~the~~ a subscriber profile for any scheduled subscription report due;

determining whether there is any scheduled subscription report due; and

accessing information relating to the subscriber of any predetermined scheduled subscription report due.

20. (Previously presented) The method according to claim 1, wherein the event data comprises one or more of paper jams, low memory conditions, and undefined paper size conditions.
